THE HEROIC DEAD.

Fourscore and seven years ago our fathers brought forth upon this continent a new nation, conceived in liberty, and dedicated to the purpose that all men are created equal. Now we are engaged in a great civil war, testing whether that nation, or any nation so conceived and so dedicated, can long endure. We are met on a great battle-field of that war. We have come to dedicate a portion of that field as a final resting-place for those who here gave their lives that that nation might live. It is altogether fitting and proper that we should do this. But in a larger sense we cannot dedicate, we cannot consecrate we cannot hallow this ground. The great men, living and dead, who struggled here, have consecrated it far above our power to add or detract. The world will little note, nor long remember, what we say here, but it can never forget what they did here. It is for us, the living, rather to be dedicated to the unfinished work which they who fought here have thus far so nobly advanced. It is rather for us to be here dedicated to the great task remaining before us, that from these honored dead we take increased devotion to that cause for which they gave the last full measure of devotion; that we highly resolve that these dead shall not have died in vain; that this nation under God, shall have a new birth of freedom, and that government of the people, by the people, and for the people, shall not perish from the earth.—*LINCOLN.*

MONEY AND BUSINESS.

Penty of money and plenty of crops, good railroad earning and a volume of business hardly ever surpassed, says the New York Tribune, made the stock market so buoyant last week that heavy realizing sales on Friday and Saturday did not prevent a close about $1 higher per share than that of the previous week. Stocks have advanced on the average $2.33 per share for the past two weeks, and in publishing comments on the week's events there is a tone of anxiety lest this, like so many other hopeful beginnings of improvements, should meet with a speedy reaction. If a public desire to buy and hold stocks were the basis, there would be small occasion for anxiety. But though the market has visibly broadened to some extent, the strength of the public demand has yet to be tested. So far, most of the work done is in the nature of marking up goods on the shelves, but the exports of $3,600,000 gold were known mainly on Friday, and the resisting power of the market was found ample

The industrial situation has altered during the past week only for the better. All accounts agree more closely than usual as to crop prospects, which are decidedly good, except that drouth has harmed cotton in some localities. Wheat dropped to about 80 cents in elevator on Wednesday, and after some recovery closed a cent lower than a week ago, with corn and oats each a fraction lower. Cotton and pork products have risen a shade, and oil about 3½ cents, with sugar steady, lead higher, but copper and tin lower. Prices on the whole have gained but little for the week, but as harvest draws near a lower level is to be expected. New wool begins to come forward in Michigan, and there as elsewhere somewhat better prices are asked, while the increased hopefulness of manufacturers is evidenced by the change of the large mill from woolen to worsted goods, and the beginning of work on an enormous new worsted mill at Passaic. The market can hardly be said to have changed materially, but in view of the expected decision on worsted duties there is much more confidence.

Queen Victoria bids fair to reign longer than any of her predecessors on the English throne. She is a few days over 70 years of age. Elizabeth, who was the oldest of English rulers up to the reign of George II., died at Victoria's present age. The Queen's uncle, William IV., died at 72. His father, George III, died at 72. His father, George III., died at 82, and the latter's father, George II., at 77 years of age. The longest reign in English history is that of the Queen's grandfather, George III., which was fifty-nine years, and there is a fine prospect that Victoria will break the record. She has reigned fifty-two years. If she should live to be as old as George III., she would keep the throne away from the Prince of Wales for twelve years yet.

With all the business and social experience that Mrs. Frank Leslie has had it seems to exercise very little judgment in the selection of her intimate friends. A few months ago the Russian prince, whose attendance was tireless, got into money difficulties and stole an overcoat. An other Russian admirer of the New York lady causes her name to be mixed up with some unpleasantness in Cotten Row, London. Mrs. Leslie introduced Mrs. Leslie Carter to such a magnificent celebrity as Kyrle Bellew, and now it appears that Mr. Gillig, of the American exchange in London, is not quite the sort of a person that Mrs. Leslie expected. As with many another bright and popular woman there are distinct limitations to Mrs. Leslie's good sense.

"Has it occurred to you," said a railroad manager recently, "that ocean steamers now make better time than the average passenger train? It seems strange, doesn't it, that a ship should plough through the ocean at a higher rate of speed than a passenger train runs on wheels, but it is a fact, as figures prove. The City of Paris, on her trip last week, made 511 knots, or geographical miles, in one day. That is 587 statute miles in one day, or 24½ miles an hour. An ordinary passenger train does not average over 22 or 23 miles an hour, and it is a fast train that makes 25 miles."

This week will in all probability see the end of the contest for ballot reform in Connecticut. The house a few days ago passed the bill by a nearly unanimous vote, and in the senate it is said that a division will hardly be called for when the matter is brought up, as it will be in a day or two. The Connecticut legislature is simply becoming irresistible. In ten years there will be few states which have not enacted laws of this character, notwithstanding the determined opposition of the Janesville Recorder to ballot reform measures.

MILTON.

—Memorial exercises were held at the M. E. church last Sunday. The A. D Hamilton Post and the Woman's Relief Corps were well represented at the services, which were conducted by the Rev. W. B. Robinson, pastor of the church. His sermon was an interesting production and very appropriate to the occasion which it was prepared for.

—The Philomathean and Orophilian club played a match game of ball Thursday afternoon. Despite the fact that some of the players had not caught a ball this season, the game was quite interesting. The Orophilians were the winners by a score of 14 to 11.

—The Kickapoos draw large crowds every night and Sagwa abounds in house holds.

—The Western Union Co. are arranging to put up an other telegraph wire through this section, presumably for the block system, and several car loads of material have been unloaded at this station.

—The funeral services of Mrs. McGowan, wife of Rev. J. W. McGowan, who died at Johnstown on Saturday took place at the residence of Mrs. H. Estee, in the village on Monday afternoon, and the remains were buried here. The bereaved husband and mother have the sincere sympathy of a large circle of friends in this community where both husband and wife spent many years as students at the college.

—The Milton Jornet band are under contract to furnish music for the class of '89, on Commencement Day, and also for the Senior concert on the evening of that day.

—B. W. Morgan, M. D., of St. Louis, and his father, were in town Friday. The doctor graduated here in the class of '74, and was in the village to visit old acquaintences. He is professor of surgery in the St. Louis Homeopathic Medical College, an institution that he has been connected with for ten years or more.

—The farmers are beginning to long for a drouth that will permit them to cultivate corn.

—President Whitford was out last Wednesday with his geology class, and some fine specimens were secured at the quarries along Rock river, and a stop made at Crystal Springs.

—The Board of Supervisors are putting in the iron bridge at Otter Creek, which the taxpayers ordered at town meeting.

—The "Bush" nine from Harmony, played a match game of ball Friday with the Milton boys and beat them by a score of 12 to 11. It took ten innings to decide the game.

—Nelson Clarke injured his leg quite seriously last Friday while engaged in unloading gravel. The bone was cracked and he will be laid up for some time.

—Mrs. F. G. Springer and family, of Chicago, were the guests of Rev. W. B. Robinson last week.

—F. E. Osborn's house is enclosed and his barn finished.

—The ice cream and strawberry festival at the M. E. Church Wednesday evening was not as liberally attended as it would have been had the atmosphere been less arctic.

—There was a killing frost here Tuesday morning which nipped garden stuff and did more or less damage to small fruits.

—The Jones Brothers are improving the Alexander house by applying a coat of paint.

—Rev. J. W. Morton, of Chicago, was in town this week.

Woman's Modesty.

Many women are prevented by feelings of delicacy from consulting a physician in those disorders arising from functional derangement of her peculiarly delicate organism, and the most serious results are often caused by this neglect. To such persons Dr. Pierce's Favorite Prescription is an especial boon, as it offers a sure and safe cure for all those distressing disorders to which women are peculiarly subject, while it saves a modest girl or woman from the embarrassement of a personal consultation with a physician. "Favorite Prescription" is the only medicine for woman's peculiar weaknesses and ailments, sold by druggists, under a positive guarantee from the manufacturers, that it will give satisfaction in every case, or money will be refunded. See guarantee on bottle wrapper.

STANLEY'S MACHINE GUN.

It Should Have Belonged to America, but Does Belong to England.

The prints of the English-speaking world have been full of stories about the machine gun which Henry M. Stanley carries with him in his last desperate venture into Africa. And yet it is an old story.

The weapon so much talked about is a Maxim gun. It was invented by a citizen of these United States. He was poor and sought encouragement from our government. He got none. He went to England, where they saw his merits at once and made him rich. So his invention is under control of the British government.

At the time when he commenced his investigations the three great machine guns of the world were the Gatling, the Hotchkiss, and the Nordenhoff—the first two American, the last English. There was little difference in their merits, save that the Hotchkiss was lighter and made for ready transportation.

Maxim, an American boy said to himself: There are faults about these machine guns.

1. The turning of the crank prevents anything like an aim. 2. Often the cartridges hang fire a little, but the crank turns on and they explode at the wrong time. 3. Most of all, the rapid firing heats the gun so that it is useless and even dangerous in a few seconds.

The Maxim gun overcame all these defects. It is automatic. It needs no crank. Pull the trigger once and it continues to load and fire itself so long as the supply of cartridges lasts. The power of the "recoil" does all the work, even to shooting a jet of water along the barrel to keep it cool. It fires 700 shots in a minute, and all that the operator has to do is to aim it.

This is the Stanley gun. You can not see it in the United States now, for it is owned by the government of Great Britain.

THREE ARE INDICTED.

SULLIVAN, COUGHLIN, AND WOODRUFF HELD.

The Testimony Before the Grand Jury Strong Against the Trio Now in Custody.

Woodruff Makes Another Confession—The Grand Jury at Work on the Great Tragedy.

CHICAGO, May 29.—Daniel Coughlin, the detective; P. O. Sullivan, the iceman, and Frank Woodruff, alias Black, the "trunk man," were yesterday indicted by the grand jury on the charge of murdering Dr. Cronin. There are three counts to each indictment, but they refer only to the instruments used in the killing, and read, "a sharp instrument, a blunt instrument, and an instrument unknown."

The first witness was old man Carlson, the owner of the cottage 1872 Ashland avenue, Lake View, where the murder took place The old man was before the grand jury but a very short time, when he was led out and returned to the west-end witness room.

T. T. Conklin, the saloon keeper and personal friend of the dead doctor, was the next witness. Remaining about twenty minutes he was followed by young Carlson.

John J. Cronin, a brother of the murdered man, was led in after young Carlson and next in order came the following persons: John Roesch, the man who found the body; Justice Mahoney of Lake View, and special friend of the iceman; Dr. Brandt, who examined the hair in the trunk and the hair on Cronin's head, pronouncing both the same; Dr. Belfield, who was at the post-mortem; Mrs. Conklin, Capt. Schaack. Lieut. Schuttler, Frank Scanlan, Detectives Lorch, Rohan, and Hiatt, Willard J. Smith and his brother John, Capt. Dinan, the liveryman, who owns the rig which carried Cronin to his death; Milkman Mertes, who heard the doctor's death-cry, young Carlson's wife, and Capt. Wing of Lake View.

Not one of the principals was arraigned. It was at first thought that Sullivan had been taken before the jurors, but this was denied. If this is so he was spirited back and forth in a manner most mysterious and invisible. Coughlin and Woodruff were certainly in the jail behind the bars.

"We have a strong circumstantial case," said State's Attorney Longenecker as he issued from the jury room, and in reply to the eagerly pressed inquiry on that point he declared:

"No evidence was heard that implicated any one but the three against whom true bills were found. This is the end of the present grand jury's work on the case," he further said, "and the jury now goes back to the routine consideration of jail cases."

Of the above list of witnesses, the police officers, the Carlsons, and Mr. and Mrs. Conklin were the only ones capable of furnishing testimony additional to what has already been printed. There is, again, the State's attorney's word for it that the Conklins went no further than to narrate the familiar facts of Dr. Cronin's apprehension of foul play and the incidents of his fatal errand, including a description of the man who called for him. Mr. Longenecker avers that Dr. Cronin's private papers in the hands of the Conklins' were not introduced nor any knowledge in their possession casting suspicion on others than the three indicted.

The Carlsons added to their previous story enough to create the strong presumption that Detective Coughlin was familiar with Iceman Sullivan, and that they have been seen at various times together. From the policemen the best new evidence came and that is found in the links that, for the first time, clearly bind Woodruff to the crime.

Woodruff's Connection with the Case.

It has been common opinion that if the murder was of Irish factional origin Woodruff's story must be reduced to a mere play for notoriety and his innocence of any complicity certain. Capt. Schaack and his officers made it possible to take a new view.

It will be remembered that Woodruff led the police to the identical spot where the trunk was found. He said that he had taken it from Watrous' barn on North State street, and that it had contained the body of a woman wrapped in cotton. Later developments almost conclusively prove that Dr. Cronin's body was in the trunk. Woodruff's story about the woman and the State street barn, Alice, "the Doc.," and all the concomitants of that fine fairy tale are swept away, and the culprit stands circumstantially convicted of complicity in the disposition, if no more, of Dr. Cronin's body.

The theory of the iceman's guilt is founded upon his suspicious contract with Dr. Cronin, his many contradictory stories, and a number of small but damaging discrepancies in his conduct.

One of the most interesting features of the grand jury's action is that it found no indictments against the Clan-na-Gael leaders and other Irishmen of prominence who had been popularly marked out as parties to the plot. The matter of the Clan-na-Gael trials and sentences were not broached, nor was there a particle of evidence adduced upon the popular theory of political conspiracy.

Alleged Confession by Woodruff.

Frank Woodruff, alias Frank Black, has been taken into camp by Capt. Schaack and he has told the whole story of his connection with Dr. Cronin's murder.

According to the statements he has made to the North Side captain he was not directly connected with the murder itself, but simply acted as the driver of the wagon which disposed of the dead man's body in the catch basin where it was found.

At daybreak Sunday morning Capt. Schaack, in a cab driven by a detective, arrived at Indiana and Dearborn streets, and after waiting for several minutes Woodruff, accompanied by a jail guard, arrived. He was taken into the vehicle and driven to the scene of Dr. Cronin's murder and also to the catch-basin and the place where the trunk was found. Woodruff himself gave the driving directions to the detective, who managed the reins, and in every instance located the exact places where the chief acts in the horrible tragedy occurred.

According to his confession he was directed by those who had charge of that part of the conspiracy, and whose names Capt. Schaack reserves for reasons that are palpable, to go to Dean's livery stable, where he would obtain a horse and wagon. He had already been instructed to drive the outfit to the neighborhood of the Carlson cottage and he also knew for what purpose he was to go there.

He arrived there about twenty minutes before Dr. Cronin was driven up and placed his horse and wagon at a point near the cottage, where he could keep his eyes on the front steps. He saw the white-horse rig containing Dr. Cronin and his conductor arrive, and three-quarters of an hour thereafter the man who was known as Williams opened the front door of the Cottage and gave the signal b stamping his foot on the wooden porch.

Woodruff at once drove up and, assisted by the third man, the trunk was loaded into the wagon. The two men followed the trunk and directed Woodruff, who continued as the driver, to drive eastward to the lake to a certain point which Woodruff had designated to Capt. Schaack.

The wagon headed for the lake and in its depths the trunk and its contents would have been deposited had not the interruption come from the two Lake View policemen. This smashed the original plans of the two men and immediate steps were taken to get out of the officers' way. This was done by taking a circuitous route, which again brought them to the Evanston road. They had now been driving for nearly an hour with their ghastly load and one of the men suggested the sewer. A stop was made at the Fifty-ninth street intersection of the Evanston road. The top was taken from the man-hole on the southeast corner and the trunk lifted from the wagon.

It was then a new and an unexpected difficulty presented itself. While it was possible to drop the trunk with the body into the lake it became a physical impossibility to thus dispose of the load in the man-hole. It was resolved to take the body out of the trunk, drop the body in the catch-basin, and return with the trunk to the cottage and burn it. But when the trunk was to be unlocked it was found that the key had been lost.

Williams said there was no more time to be lost and he kicked in the lid of the trunk. The three lifted the body out and deposited it in the sewer as it was found. The trunk was again placed on the wagon. It was intended to go south for a distance and then to drive north to the cottage and then deposit the trunk. "Right here," said Woodruff to Capt. Schaack, pointing to the exact spot where the trunk was found, "we heard a noise of wagon wheels from the south and the two men, one of whom had been sitting on the trunk, picked up the box and threw it out of the wagon and I was urged to whip up the horse and drive west. When we reached Fullerton avenue both men said good-night to me and left the wagon."

The remainder of the confession is devoted to Woodruff's wanderings with the horse and wagon in his attempt to sell them.

He also states in his confession that there is nothing in the woman story he had told. The enormity of the crime had never dawned upon him until he had taken part in it. When he was arrested he knew he was in a "bad box." The names of King and Fairburn were those of two old friends and they came to him on the spur of the moment. They had nothing whatever to do with the case.

Beginning the Inquest.

The coroner's inquest into the cause of the death of the late Dr. Cronin, which was adjourned from last Friday was resumed Tuesday by Coroner Hertz taking the jury on a tour of inspection of the principal points of interest in connection with the case.

Mr. Hertz decided that it would be well to permit the jury to personally view the scenes of the tragedy that they might the better comprehend the evidence to be adduced before them. Carriages were obtained, and the coroner and his jury and a dozen or more reporters went to Lake View.

The party proceeded to the catch-basin where the body was found, and afterward looked at the spot where the bloody trunk was picked up. The trip concluded with an inspection of the actual scene of the murder—the Carlson cottage. The hearing of testimony began at the coroner's office Wednesday.

An Alderman Accused.

Detective Robert Bruce, who has been conducting a private agency in this city, walked into Lieut. Horace Elliott's office this morning and said that several months ago Alderman McCormick offered him $1,000 to kill Dr. Cronin.

Bruce, who has just returned from a three-months' stay in Texas, says that McCormick paid him $100 in advance and agreed to pay the remaining $1,000 when the job was done. Bruce declares that McCormick told him to feign sickness in his office and then send for Dr. Cronin and kill him. Bruce says he took the $100, spent it for liquor and never made a move toward carrying out the contract.

Bruce bears a rather unsavory reputation and the police did not place all the reliance in the world in his story. He has been in numerous scrapes in this city.

Iceman Sullivan's Confession.

CHICAGO, May 29.—That P. O. Sullivan, the Lake View ice-man, made a full confession concerning his connection with the murder of Dr. P. H. Cronin, and gave to the police the names of several persons who were implicated in the awful crime is confirmed.

It was learned that, after Sullivan's confession, a prominent citizen of Chicago was placed under close surveillance, three men being detailed to shadow him day and night. Any attempt by the suspect to leave town will be the signal for his arrest.

Chief Hubbard was questioned in regard to the matter and admitted that a well-known man was being closely watched, and, that while he is at liberty to go where he chooses in this city he is practically under arrest, and any attempt on his part to leave the city would result in his being placed behind the bars.

The chief refused to say whether there had been any arrests made since P. O. Sullivan was taken into custody, but from his manner it was inferred that several arrests were made last night.

When asked how soon any important arrests would be made the chief replied:

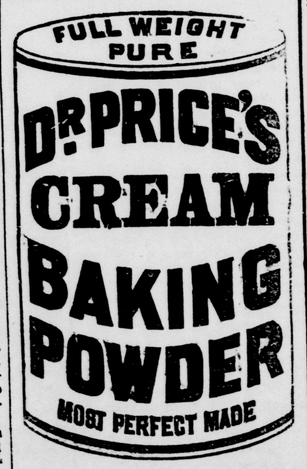
"I can't say, but it will pay to keep a lookout."

P. O. Sullivan, the ice man, was brought from the Lake View station to the East Chicago avenue station but Lieut. Schuettler Tuesday morning and again arraigned before Justice Kersten. The latter proceeding was taken because Justice Kerston was not sure that he had jurisdictson in Lake View, where he held court Monday night. After the arraignment Sullivan was held without bail on the charge of murder.

THE SITUATION IN NEW YORK.

NEW YORK, May 29.—Inspector Byrnes will not say that he is watching any men in connection with the Cronin tragedy, but it is well known at headquarters that Detectives Golden and Valley have been detailed on some secret work which, it is thought, may have an important bearing on the Chicago case.

All sorts of stories are told by members of the various Irish organizations, but the one that receives most credence is that Cronin was only one of the number who were either already condemned or were shortly to be sentenced to death by the highest authority in the Clan-na-Gael. In this list were included Dr. Peter McCahey and Luke Dillon of Philadelphia; John Devoy of this city, and W. J. Hynes, the Rev. Father Gleason, and Capt. J. P. O'Connor of Chicago.



Its superior excellence proven in millions of homes for more than a quarter of a century, it is used by the United States Government. THE MILITIA IS ON HAND

EIGHT COMPANIES ENCAMPED AT BRAIDWOOD.

Twenty-Five of the Striking Miners Captured and Disarmed—Serious Trouble Feared.

BRAIDWOOD, Ill., May 29.—Eight companies of the Fourth Illinois National Guard pitched their tent on the Chicago, Wilmington & Vermillion coal lands at the "J" shaft Tuesday morning, and are now scouting the Italian quarters. Twenty-five miners have been arrested. On their persons were found knives and revolvers.

The militia is comprised of company A of Streator, Capt. LeClair; company B of Joliet, Capt. Jackson; company C of Chicago, Capt. Tolman; company D of Ottawa, Capt. Blanchard; company E of Chicago, Capt. Ford; company F of Sablette, Capt. Tourlellotte, company G of Bloomington, Capt. Butler, and company H of Kankakee, Capt. Whitmore. The staff is composed of Lieut.-Col. Ingalls, Senior Major S. Munroe, Junior Major Bradford, Adj.-Capt. D. C. Haren.

There are 300 armed Italian miners within a few miles of Braidwood who have not been found. This fact causes some apprehension. Information has been brought to Sheriff Huston that about 300 men armed with rifles were coming from Braceville and moving on the troops camped at the "J" shaft, about three miles northwest of Braidwood.

When Adjt.-Gen. Vance was told this he smiled and said: "Let them come. I am glad to hear it. If they do the strike will soon be settled." There is some foundation in fact for the rumor of the 300 armed Italians. The trouble at the "J" shaft is caused principally by the Italians. Of the 900 men employed at the "J" shaft only about one-fifth are Italian. The strikers at the other mines in the neighborhood are nearly all Italians. Their presence here is to prevent the "J" miners from working.

Mine Superintendent Corey says that during the last ten days as many as 1,000 Italians in a body have visited the "J" shaft, and he estimates that 300 of them were armed with rifles. These miners come from the towns of Stark City, Coal City, Suffernville, Braceville, Gardner, and the Diamond mine, which is about half a mile north of the "J" shaft.

An effort was made Tuesday to find these arms and arrest the owners. Two companies of troops were sent to Godley, two companies to "Monkey" Robinson's Corners, where there are three Italian saloons, and two companies to the Diamond mine.

The houses of all Italians were searched by deputy sheriffs under protection of the troops, but not a gun was found. The sheriff does not understand this, and it troubles him. There is a suspicion that the rifles and their owners are together and in hiding. Gen. Vance was much surprised at the action of the Italians when their houses were searched. "I expected some trouble," he said, "but there was not a complaint. The women sat on their door-steps and laughed at the soldiers. I don't quite understand their willingness to have their houses searched. It may be that they knew where the guns were and that we would not find them.

A lady school teacher at the Diamond mine says the Italians hid their guns in the chimneys of their houses. Sheriff Huston says that not a chimney was searched.

Joseph Palaro, the leader of the Italians, is not yet under arrest. He has been seen nearly every day, and the sheriff of Grundy county is looking for him. Palaro worked at the Diamond mine, which is in Grundy county. He was the leader of a large body of men who came to the "J" shaft last Tuesday. The crowd was met by Supt. Corey, who ordered the men to leave the section. Palaro shouted: "On, Italia; on, Italia," and the crowd went on to the shaft.

Some trouble occurred at the camp and about 100 men were arrested. The military camp attracted the Italians in large numbers. In the afternoon a crowd of them were surrounded by the troops and they were ordered to throw up their hands. About 100 were searched but only five were found to be armed. These are now in the guard house.

The grand jury is in session here and will examine evidence of riot against these men. It is said they were in the crowd that captured the shaft a few days ago.

It is asserted that the Italians are rallying at Godley, Coal City, Clark City, Gardner, and Brakeville for an attack. The plan of Col. Bennett is to attack the Italian settlements in detail before they can rally. Great activity is noted in the Italian quarters and crowds are seen gathering to rescue their arrested brothers. The residents say that the Italians mean fight and do not care for their lives. The whistle in J shaft blew for work this morning, but no miners reported.

CROPS RUINED BY FROST.

An Unexpected Cold Wave Does Immense Damage in Minnesota.

BRAINERD, Minn., May 29.—There was a tremenduous freeze throughout northern Minnesota Monday night. Ice formed neaely half an inch thick. Gardens generally are killed, early corn cut down, and grain cannot but be badly hurt, as the frost is deep enough in the soil to reach the roots. All crops previously promised exceedingly well.

OSHKOSH, Wis., May 28.—White frost this morning did great damage to vegetables and small fruits. Market gardens suffered severely.

Good Templars of the World.

CHICAGO, May 29.—The thirty-fourth annual convention of the Independent Order of Good Templars has opened at the First Methodist Episcopal church. Five hundred delegates are present, representing nearly every country on earth, and their deliberations will probably continue for about two weeks. Mr. William W. Turnbull of Glasgow, Scotland, head of the order, presided at the meeting.

This order is the largest international temperance organization in the world and contains over one hundred grand lodges having jurisdiction over as many separate countries, states, and territories. Under these grand lodges are an aggregate of 10,114 local lodges, with 670,000 adult and juvenile members.

Short $35,000 in His Accounts.

CINCINNATI, Ohio, May 29.—Ex-Treasurer Louis Constans of Newport, Ky., was to-day indicted by the grand jury for embezzlement, the amount of the shortage being fixed at $35,000. The ex-city clerk, William F. McClure, was also indicted on the same charge. His shortage is fixed at less than $2,000. Much surprise is felt in both cases. Both men are of high standing in the community, and neither has been suspected of any intentional wrongdoing. Mr. Constans admitted a shortage of nearly $7,000, but seemed confused when shown a shortage of $27,000 in one omission from his cash-book.

Beecham's Pills act like magic on a weak stomach.

Clear the Way.

Without loss of time when the intestinal canal is blocked up by reason of constipation, chronic or temporary. It should be borne in mind that this ailment is prone to become lasting and obstinate, and breed other and worse complaints. Hostetter's Stomach Bitters is the precise remedy to remove the obstruction effectually, but without drenching or weakening the blockaded bowels, a consequence always to be apprehended from the use of violent laxitives, which are among the most pernicious of the cheap nostrums swallowed by the credulous and misinformed. The fiat of experience, and of the medical fraternity, sanction the claims of this standard aperient. Not only as a source of relief and permanent regularity to the bowels, liver, and stomach, but as a means of remedying and preventing kidney and bladder troubles, and fever and ague, it is without a peer.

THERE IS NO ONE ARTICLE IN THE LINE of medicines that gives so large a return for the money as a good porous strengthening plaster, such as Carter's Smart Weed Belladonna Backache Plasters.

OPPOSED TO THE JESUITS.

Meetings in Canada to Protest Against the Jesuits Estates Act.

OTTAWA, Ontario, May 29.—An immense Protestant mass-meeting was held here last night to consider the Jesuits' estates act. Speakers from Montreal and Toronto were present. The Dominion and Quebec Governments were condemned—the latter for giving the Jesuits a foot-hold in the country, and the former permitting this to be done. Resolutions were adopted which advocated the taking of measures to insure and maintain perfect religious equality throughout the entire Dominion, and to assist in testing the constitutionality of the incorporation and endowment acts of the Quebec legislature.

MONTREAL, May 28.—A large and influential public meeting was held last night under the auspices of the Citizens' committee in connection with the anti-Jesuit movement. Strong speeches were made. A resolution commending the action of the committee was passed. A petition asking the Government to annul the Jesuits' estates act was signed by all present.

EVENTS IN CUBA.

Four Lives Lost in a Fire—A Gang of Bandits Arrested.

HAVANA, May 29.—By the explosion of a can of coal oil in this city a woman and her two daughters, aged respectively 13 and 2 years, also a colored boy, were burned to death. Two sons of the woman and two other persons were severely burned.

An official telegram from Cienfuegos reports the capture of the bandits Victor Machin, Juan Machin, Eusiblo Morono and Ramon Suarez. The wife and three children of Victor Machin have also been arrested. The entire party will arrive here to-morrow's train from Cienfuegos. A reward of $2,000 each had been offered for the arrest of the bandits.

Jailed for Abduction and Desertion.

FORT WAYNE, Ind., May 29.—P. B. Nicholas and Grace Moore were arrested at an early hour this morning at the Diamond hotel, where they were registered as M. B. Harris and wife, and are now in jail. Nicholas is a photographer at Gallion, Ohio, where he has a wife and children. Miss Moore is a pretty brunette and is the daughter of a prominent citizen of Youngstown, Ohio. The latter will arrive to-day to claim his daughter. Nicholas will be held until the arrival of the Ohio officers when he will be returned to Gallion, where he will be obliged to answer to the charge of seduction, abduction, and wife desertion.

Rhode Island State Officers Chosen.

NEWPORT, R. I., May 29.—The Legislature met in joint session to-day, and there having been no election by the people at the recent State election, chose the following Republican officers: H. W. Ladd, Governor; D. H. Littlefield, Lieutenant-Governor; S. H. Goss, Secretary of State, and Samuel Clark, Treasurer. All were inaugurated with due ceremony.

Three Lumber Barges Ashore.

PICTON, Ont, May 29.—The keeper of the Point Peter lighthouse reports that three lumber-laden barges are ashore there, and are going to pieces. They broke loose from a tug line this morning. It is feared that their crews will be lost and a telegram has been sent to the life-saving station at Wellington asking for assistance.

Mormons Moving to Canada.

OTTAWA, Canada, May 29.—Reports received here state that the Mormon immigration into the Northwest continues. Though mounted police are in the vicinity of Tees creek, no proof has been obtained that the new arrivals, who already form a considerable colony, are given to the practice of polygamy.

IT HAS ADJOURNED.

Closing Session of the Thirty-Sixth Illinois Assembly.

SPRINGFIELD, Ill., May 29.—The Thirty-sixth General Assembly ended Tuesday without any of the scenes that have characterized many of its predecessors. In the House the Speaker maintained his determination to finish the Senate bills on third reading, and although most of the numerous roll calls were farcical he succeeded in reaching the end.

The very last one on the list was Senator Burke's chattel mortgage bill, which went through with but two negative votes.

The special order was the Senate bill establishing an Illinois court of claims, and, after some discussion it was passed by a vote of 85 yeas.

Without discussin the Senate bill, designed to suppress the circulation of objectionable periodicals, was passed by a large vote.

Among the many bills passed were: Providing that in case of absence or sickness of appellate judges in the Superior court they may appoint substitutes.

In the senate the following house bills were passed:

Amending the road and bridge law, providing that suits for fines and penalties under this act shall be brought in the name of the town before any justice of the peace or police magistrate.

Providing for the punishment, by imprisonment in the penitentiary, of persons who shall remove any fixtures from a railway locomotive.

Providing for the organization of accident life insurance companies.

To provide for the organization of State windstorm, tornado, and cyclone mutual insurance companies.

To provide for additional aldermen in Chicago, and for redistricting the city under certain circumstances. [Supplementary to the annexation bill.]

The closing hour of the Senate was given to another attempt to suspend the rules and take up the McLaughlin semi-monthly pay bill and the reading of the report of the investigating committee on the Bunn interview. The Senators again refused, by a vote of 24 to 22, to bother themselves about other peoples' pay days.

The result of the investigation was read to the Senate and adopted. The report declared that the charge of bribery was unwarranted, and that the paper publishing it had been tricked.

The Armored Cruiser Maine.

WASHINGTON, May 29.—Reports from the New York navy yard say that nearly all the steel frames for the armored cruiser Maine are now in place and that gratifying progress is being made in the construction of the vessel. The Maine will be over six thousand tons burden and carry forty guns, ranging from four great ten-inch rifles down to small revolving cannon. The horse power will be 9,000, calculated to drive the vessel at seventeen knots' speed. But the principal point of interest about the ship is the fact that apart from the monitors she will be the first vessel built since the war that is really an iron clad, relying not on protective steel deflective decks, but on a solid belt of heavy steel armor encircling her vital parts.

Irregularities in Civil Service.

NEW YORK, May 29.—The board of civil service commissioners, consisting of Messrs. Lyman, Thompson, and Roosevelt, is in consultation with Mr. Mason, the local commissioner, whose resignation takes effect June 1. It is understood that an investigation is being made regarding the illegal irregularities in the conduct of the civil service office of the custom house department. Commissioner Roosevelt said to-day that the board was in possession of no facts or data in any way reflecting on Mr. Mason, but that it had both facts and affidavits establishing the existence of irregularities on the part of other attaches of the office.

Applauded Potter's Name.

NEW YORK, May 29.—The Rev. Dr. McGlynn appeared before the Anti-Poverty society Sunday night and spoke on the subject of "Bishop Potter and Dr. Storrs; or, Plutocracy or Democracy." The speaker referred particularly to certain statements concerning the present decadence of the political influences of the country. He spoke of the present form of government and declared that it was not a pure type of democracy. When Bishop Potter's name was mentioned there was an enthusiastic demonstration.

Trying to Renew the Strike.

LINCOLN, Neb., May 29.—An evening paper prints an open letter from a prominent official in the new non-union organization of Burlington engineers addressed to the brotherhood, proposing a joint meeting with a view to consolidate the societies and renew the strike. PASTOR KOENIG'S NERVE TONIC

CURED AFTER THIRTY-TWO YEARS.

MILWAUKEE, May 25, 1887.

REV. FATHER KOENIG:—I am personally acquainted with a man who (in the year 1878, then forty-four years of age) commenced to take your medicine for epilepsy, which he had had for thirty-two years. The attacks which he had formerly every four weeks diminished as soon as he took your medicine and disappeared entirely since August, 1880. The man is so healthy now that he can attend to his business without fear. By this wonderful cure a large family has been made happy, and of this he is convinced and gladly testifies.

REV. PATER AEGIDIUS.

Our Pamphlet for sufferers of nervous diseases will be sent free to any address, and poor patients can also obtain this medicine free of charge from us.

This remedy has been prepared by the Reverend Pastor Koenig, of Fort Wayne, Ind., for the past ten years, and is now prepared under his direction by the

IT SPOILS THEIR APPETITES.

What Followed a Liberal Course of Lemon Pies in a Boarding House.

A certain lady who keeps a rather fashionable boarding house in this city is troubled with ten boarders—no less than ten—who possess enormous appetites, says the Pittsburg Dispatch. Everybody that knows a boarding house can realize that ten boarders with large appetites are very hard upon the profits of the concern. She tried, like a thorough business woman, all sorts and methods to check these ungodly appetites, but to no avail.

One day she happened to tell her family doctor of these ten hungry men and how they worried her, and he said immediately:

"Why, I can give you an easy remedy for that."

She told him she would be very much obliged to him for any help that he could give her on the subject, and moreover said that it would be worth a great deal of money to her.

"Well," said he, "next week bake a lot of lemon pies and see that those ten boarders get their share of pie."

"Is that all your prescription, doctor?" said the lady.

"Yes, ma'am," he replied, "and you will find it quite enough."

So the next week she baked a number of lemon pies, and she saw to it that the ten boarders were helped twice to pie on the first day. After that she noticed gradually that their appetites fell away, and at the end of that week there was an unmistakable diminution in the bill for provisions required for that boarding house.

The lemon pie diet was continued until the boarding-house became as profitable as it had previously been unprofitable. It is not within my power to say exactly how the lemon pie acts on the average boarder, but it is certainly a fact that in this case the lemon pies produced what no other system of dieting could accomplish.

A Cool-Headed Horsewoman.

Miss Bessie E. Kilpatrick of Sacramento, Cal., a most daring horsewoman, who was brought up amid the wild bronchos of Texas, met with a singular accident in a Philadelphia park recently. She was riding a Kentucky 3-year-old mare, just broken to saddle, in company with her brother and a lady, when the mare shied at a piece of paper on the roadside. The girth broke and with one bound the mare dashed forward. Miss Kilpatrick for a second lost control of the animal and was away like the wind. As she found the saddle slipping from under her she shouted to her brother, "Halt your horses! Don't follow me!" and leaning forward grabbed the mare by the ears. The saddle slipped down, and with a sudden plunge forward she threw her hand over one eye of the mare, which turned half-way, and Miss Kilpatrick then slid to the ground, still holding the reins. The animal attempted to run, but the young woman had grabbed the bit by the ring, and by the time her brother and friends reached her she had quieted the animal and was laughing at the escapade. Asked if she was not afraid she replied: "If I had been afraid I should have been killed. I only wanted to get my hand over Jennie's eyes, and then I knew she would keep quiet. Oh, no; there is no use in being afraid." The girth was refastened and she continued her ride.

Aiding an Equestrienne.

Young man, this is the way to horse and unhorse an equestrienne: The gentleman should stand facing the lady at the left side of the horse, his right foot slightly in advance of the left. He should then stoop and offer his left hand for her foot, using his right hand to steady her as she rises. They should count aloud together one, two, three, and at three he should straighten himself for giving strong support for her left foot, while she at the same time, bending her right knee, but keeping her body straight, should spring strongly from her right leg. In dismounting, the lady should slip her foot out of the stirrup, her leg from over the pommel, and giving her left hand to her assistant, keeping the reins in her right, should let herself slip to the ground.

Utilizing Solar Heat.

It has long been recognized by scientists that the one important discovery wanting is some method of utilizing solar heat—that is to prevent the waste of the power that is all about us. Ericsson and others have worked at the problem and have succeeded in constructing machines on roofs for concentrating rays or driving engines. Prof. Morse, well known for his researches in arcæology and paleontology in the West, has at last devised a simple stove for warming rooms by solar heat. The device is, of course, good only on sunny days. The invention is, however, along a line on which we may expect progress.

The Malagascar Idea.

When a father in Madagascar gets the notion that his daughter ought to marry he puts a rope around her neck and leads her forth, and the first young man he offers her to has got to take her or pay a forfeit. The father thus saves the expense of light and fuel incident to a two years' courtship, and the young man also saves on opera tickets and ice cream. But the spectacle of young men darting up alleys and climbing over back fences when a father starts out leading his daughter with a rope around her neck, must be a very common one in Madagascar.

Drowned by Fish.

Young Mr. Hulin, who lived on the Tallapoosa river, in Clay county, Alabama, went seining a few days since with some neighbors. On quitting Mr. Hulin had a heavy bag of fish around his neck. He decided to take a swim. Getting into deep water the fish pulled him under. He managed to rise to the surface once, but immediately sank, and was never seen again.

So pure and simple, and so mild,
It might be used by any child,
Yet SOZODONT is so swift and sure
That mouth and teeth with wondrous speed
From tartar and from taint are freed
Till they become sweet, white, and pure.

Perhaps no local disease has puzzled and baffled the medical profession more than nasal catarrh. While not immediately fatal it is among the most distressing nauseous and disgusting ills that flesh is heir to, and the records show very few or no cases of radical cure of chronic catarrh by any of the multitude of modes of treatment until the introduction of Ely's Cream Balm a few years ago. The success of this preparation has been most gratifying and surprising.

LANCASTER, Pa., May 29.—An eastbound freight train on the Pennsylvania railroad ran into the Parkesburg construction train east of Christiana this morning. The engine and ten cars of the freight train were badly wrecked, and travel delayed for over four hours. None of the train hands were injured.

Fire in the Servia's Hold.

LIVERPOOL, May 29.—After the arrival of the steamer Servia at this port yesterday a slight fire was discovered in the forward hold. The damage to the cargo was confined to three bales of cotton. The ship was not injured.

THE LAND LEAGUE BOOKS.

A London "Times" Witness in Possession of These Records.

LONDON, May 29.—In the Parnell commission to-day Mr. Reid, counsel for the defense, informed the court that Moloney, a Times witness, had possession of the missing and long-sought for Land League books. This the Times people knew, Moloney having disclosed the fact that he had them.

The books, including the cash books, are now in court. The disappearance of these books and the inability of the defendant to produce them has directed suspicion against the defendants, though the books were all the time within the cognizance and control of the prosecution. This is denounced by the Parnellites as a species of sharp practice which will not help the Times' case.

THE BISHOP INQUEST.

A Deputy Coroner Testifies to the Appearance of the Remains.

NEW YORK, May 29.—In the Bishop inquest Deputy Coroner Jenkins testified that on May 18 he examined the body of the deceased mind-reader, re-opening the incisions previously made. He found the body well preserved. In the chest cavity he found many vital organs and also the brain. The organs all seemed to be in a healthy condition, and in their appearance presented no cause for death. Portions of the brain and of the vital organs were missing, however, so that the witness could not speak with certainty as to the condition of the whole.

Will Summer in Alaska.

NEW YORK, May 29.—Ex-Senator Thomas C. Platt and Gen. Russell A. Alger have decided to spend the summer in Alaska. All the details of the trip have been arranged, even to the date of their departure. They will leave this city June 20 in Gen. Alger's private car Michigan. They will journey by rail to Tacoma, in the new State of Washington. From that point they will embark in a steamer which will convey them to Alaska. Mr. Platt will be Gen. Alger's guest on the trip. They expect to be away two months or more.

Robbed Twenty-One Cars.

ERIE, Pa., May 29.—Erie has long been infested with a gang of most persistent and successful car robbers. The latest exploit of the thieves is the breaking into and robbing of twenty-one freight cars of the Pennsylvania company that came here over the Philadelphia & Erie line Friday night.

Valuable property to large amount is reported lost, but no exact figures are given. This is said by the railroad officials to be the greatest steal of the kind on record.

Too Many Wives.

CLEVELAND, Ohio, May 28. — William Gearhart was arrested at Findlay, Ohio to-day on a charge of bigamy, it being alleged that he has four wives living, two in Pennsylvania, one in Findlay, and one in Wood county, Ohio. He was held in $500 bonds for trial and while out with an officer to get bail succeed in making his escape.

A Woman's Discovery.

"Another wonderful discovery has been made and that too by a lady in this county. Disease fastened its clutches upon her and for several years she withstood its severest tests, but her vital organs were undermined and death seemed imminent. For three months she coughed incessantly and could not sleep. She bought of us a bottle of Dr. King's New Discovery for consumption and was so much relieved on taking first dose that she slept all night and with one bottle has been miraculously cured. Her name is Mrs. Luther Lutz." Thus writes W. C. Hamrick & Co., of Shelby, N. C. —Get a trial bottle free at F. Sherer & Co.'s drug store.

NOT A PIMPLE ON HIM NOW.

Bad with Eczema. Hair all gone Scalp covered with eruptions. Thought his hair would never grow. Cured by Cuticura Remedies. Hair splendid and not a pimple on him now

I cannot say enough in praise of the Cuticura Remedies; My boy when one year of age, was so bad with eczema that he lost all of his hair. His scalp was covered with eruptions, which the doctor said was scald head, and that his hair would never grow again. Despairing of a cure from physicians, I began to use the Cuticura Remedies, and I am happy to say, with the most perfect success. His hair is now splendid, and there is not a pimple on him. I recommend the Cuticura Remedies to mothers as the most speedy, economical and sure cure for all skin diseases of infants and children, and feel that every mother who has an afflicted child will thank me for so doing.

MRS. M. E. WOODSUM. Norway, Me.

A FEVER SORE EIGHT YEARS CURED.

I must extend to you the thanks of one of my customers, who has been cured by using the Cuticura Remedies, of an old sore, caused by a long spell of sickness or fever eight years ago. He was so bad he was fearful he would have to have his his leg amputated, but is happy to say is now entirely well,—sound as a dollar. He requests me to use his name, which is H. H. Carson, merchant of this place.

SEVERE SCALP DISEASE CURED.

A few weeks ago my wife suffered very much from a cutaneous disease of the scalp, and received no relief from the various remedies she used until she tried Cuticura. The disease promptly yielded to this treatment, and in a short time she was entirely well. There has been no return of the disease, and Cuticura ranks No. 1 in our estimation for diseases of the skin.

Sandford's Radical Cure For Catarrh.

Cure Begins from First Application, and is Rapid, Radical, and Permanent.

"It is the mucous membrane, that wonderful semi fluid envelope surrounding the delicate tissues of the air and food passages, that Catarrh makes its stronghold. Once established, it eats into the very vitals, and renders life but a long drawn breath of misery and disease, dulling the sense of hearing, trammeling the power of speech, destroying the faculty of smell, tainting the breath, and killing the refined pleasure of taste. Insidiously, by creeping on from a simple cold in the head it assaults the membranous lining and envelopes the bones, eating through the delicate coats and causing inflammation, sloughing and death. Nothing short of total eradication will secure health to the patient, and all alleviative are simply procrastinatinated sufferings leading to a fatal termination. Sanford's Radical Cure by Inhalation and by Internal administration have never failed: even when the disease had made frightful inroads on delicate constitutions, hearing, smell and taste have been recovered, and the disease thoroughly driven out."

SANFORD'S RADICAL CURE FOR CATARRH consists of one bottle of the RADICAL CURE, one box of CATARRHAL SOLVENT, and IMPROVED INHALER, neatly wrapped in one package; with full directions; price, $1.00. Sold everywhere. POTTER DRUG AND CHEMICAL CORPORATION, BOSTON.

SEVENTH POINT

You should read THE CHICAGO DAILY NEWS because *you can afford it.* Price doesn't stand in the way. It's really the cheapest thing on earth. One cent means practically nothing—until you spend it. Then you may make it mean a great deal, according as you invest it. A thing is cheap if it costs little, and is worth much. THE DAILY NEWS is like a telegraph from the whole world to your brain. To keep it in constant working order costs you but one cent a day. That's why it's cheap—because it renders a great service for an insignificant price.

Remember—Its circulation is 220,000 a day—over a million a week—and it costs by mail 25 cts. a month, four months $1.00,—*one cent a day.*

TO MONTANA, OREGON AND WASHINGTON.

If you are going west bear in mind the following facts: The Northern Pacific Railroad owns and operates 987 miles, or 57 per cent. of the entire railroad mileage of Montana; spans the territory with its main lines from east to west; is the short line to Helena; the only Pullman and dining car line to Butte, and is the only line that reaches Miles City, Billings, Bozeman, Missoula, the Yellowstone National Park and, in fact, nine-tenths of the cities and points of interest in the territory.

The Northern Pacific owns and operates 621 miles or 56 per cent of the railroad mileage of Washington, its main line extending from the Idaho line via Spokane Falls, Cheney, Sprague Yakima and Ellensburg, through the center of the territory to Tacoma and Seattle, and from Tacoma to Portland. No other transcontinental through rail line reaches any portion of Washington Territory. Ten days stop over privileges are given on Northern Pacific second class tickets at Spokane Falls and all points west, thus affording intending settlers an excellent opportunity to see the entire territory without incurring the expense of paying local fares from point to point.

The Northern Pacific is the shortest route from St. Paul to Tacoma by 207 miles; to Seattle by 177 miles, and to Portland by 324 miles—time correspondingly shorter, varying from one to two days, according to destination. No other line from St. Paul or Minneapolis runs through passenger cars of any kind into Idaho, Oregon or Washington.

In addition to being the only rail line to Spokane Falls, Tacoma and Seattle, the Northern Pacific reaches all the principal points in Northern Minnesota and Dakota, Montana, Idaho, Oregon and Washington. Bear in mind that the Northern Pacific and Shasta line is the scenic route to all points in California.

Send for illustrated pamphlets, maps, and books giving you valuable information in reference to the country traversed by this great line from St. Paul, Minneapolis, Duluth and Ashland to Portland, Oregon, and Tacoma and Seattle, Washington, Territory, and enclose stamps for the new 1889 Rand McNally County map of Washington Territory, printed in colors,

RAYMOND, Feb. 28, 1888.

DR. F. B. BREWER: I received your last box of medicine all right. I think I am much better than I was a week ago. I commenced to gain strength as soon as I got the chills and fevers broken up. I don't have those nervous spells any more. I don't cough and raise as much as I did; what I do raise looks pretty bad but no blood, just clear corruption. I have not vomited up my food for about a week. My victuals begin to taste natural. I have a splendid appetite.

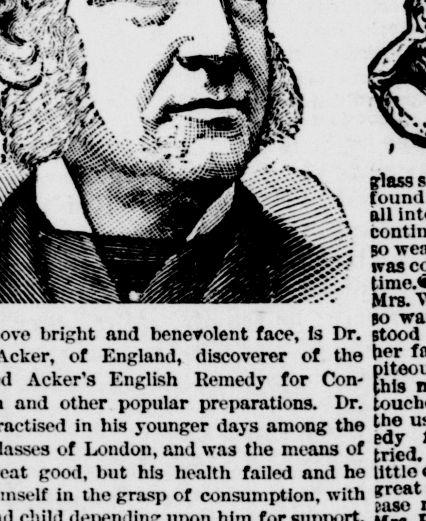
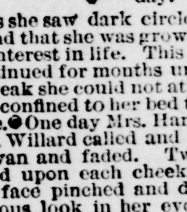
A GOOD HONEST MEDICINE.

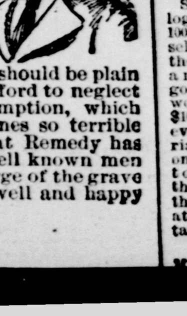


FROM DESPAIR TO JOY.

The Painful Story of a Lovely Lady, and How She Finally Secured Happiness.

Mrs. Morton D. Harlan, residing at No. 55 West 25th Street, New York City, has passed through a most wonderful experience. Mrs. Harlan had a happy home and through her devotion to her home duties over-taxed her strength. She had depressed feelings, entire lack of energy in life, and finally a cough at night and morning which grew worse each day. Upon looking in the glass she saw dark circles under her eyes and found that she was growing thinner and losing all interest in life. This painful state of things continued for months until finally she became so weak she could not attend to her duties and was confined to her bed the greater part of the time. One day Mrs. Harlan's very dear friend Mrs. Willard called and was amazed to see her so wan and faded. Two bright hectic spots stood upon each cheek, her lips were blue, her face pinched and drawn, and there was a piteous look in her eyes. Mrs. Willard knew this meant consumption and her heart was touched for her friend. At her earnest request, the use of an English Remedy for consumption was tried. At the start very little effect could be seen, so great an inroad had the disease made, but by degrees Mrs. Harlan began to regain her lost appetite, then her strength, then her hope, then her health, and she is to-day in perfect physical condition, wholly as a result of the use of Dr. Acker's English Remedy for Consumption.





The lesson of this simple story should be plain to all. No man or woman can afford to neglect those first symptoms of consumption, which seem so slight but which becomes so terrible unless taken in time. This Great Remedy has saved the lives of hundreds of well known men and women who were on the verge of the grave from consumption but who are well and happy to-day. It is sold universally.

The above bright and benevolent face, is Dr. A. W. Acker, of England, discoverer of the celebrated Acker's English Remedy for Consumption and other popular preparations. Dr. Acker practised in his younger days among the middle classes of London, and was the means of doing great good, but his health failed and he found himself in the grasp of consumption, with a wife and child depending upon him for support. While in this condition, he discovered the celebrated English Remedy, saved his own life and has since saved the lives of thousands who were on the sure road to death. Any man or woman who feels a tickling in the throat, who coughs, especially in the morning, who raises or has a tight feeling across the chest, who has sharp shooting pains through the lungs or difficulty in breathing, should realize that these are *the first symptoms of consumption* which, if neglected, are sure to result fatally. Dr. Acker's English Remedy has cured more than one thousand persons who unquestionably had consumption and who were given up by their friends. It merits its popularity and is sold by reputable druggists in every city and town in America. *You can't afford to be without it.*

THEY CAME BACK IN SORROW.

The Three Youthful Car Thieves Return from Cedar Rapids this Morning.

They Are Likely to Spend the Next Few Years in the State Industrial School.

Marshal Hogan escorted three mournful looking youngsters from the 6:15 train this morning. They were the three arrested in Cedar Rapids Monday night.

This afternoon the trio appeared before Judge Patterson. The charge preferred against them—that of larceny from a freight car—they admitted to be true. The case has not yet been decided, but it is likely that at least two of the boys will be committed to the industrial school at Waukesha.

James Nash and Henry Allen were sentenced this morning to serve thirty days in jail, the charge being "common drunk." In the case of James Nash a sentence of ten days was imposed.

Charles Edgar, who was arrested Monday night for carrying concealed weapons, paid a ten dollar fine this morning and departed.

THE WILL IS SET ASIDE.

JUDGE SALE RENDERS A DECISION IN THE BUTLER CASE.

Judge Sale has rendered a decision in the Butler will case, ruling that the will is in operative except as to two minor bequests. Bequests amounting to $2500 were made to a neice and nephew and these will stand but otherwise the will is declared invalid.

Judge Sale's decision was based on the ground that part of the provisions of the will could not be carried out, and the rest were so dependent upon these that they could not be carried out separately. The provisions relating to the wife were made wholly inoperative, and the provisions relating to the daughter could hardly be carried out alone. There was also doub as to the validity of important parts.

The estate being declared intestate the wife and child will now be awarded their shares under the law. By the setting aside of the will two children of Dr. Butler by a former wife became part heirs, but their rights have been transferred to Mrs. Butler and her daughter. The estate consists of property and securities listed originally at $25,000.

THE GRAND ARMY BENEFIT.

"COMRADES IN ARMS" PRESENTED AT LAPPIN'S OPERA HOUSE LAST EVENING.

Scarcely a hundred and fifty people witnessed Mr. Edwin Browne's production of "Comrades in Arms" at Lappin's Hall last night. Although Mr. Browne's support in many respects was not a very strong one, yet in comparison to other companies it merited a much larger reception than it was given.

Mr. Browne proved himself a clever comedian, and was well received. Miss Myrtle Loring's appearance as Mrs. Honeyton was good, and as Nancy Nipper she elicited considerable applause. A. W. Nichols, Frederick Lorraine and Dell Douglass acted their parts in a credible manner. The rest of the support was fair.

On account of the small audience the Grand Army fund was less materially increased than should have been the case, and the small boys found plenty of good seats, at prices ranging much below par.

PRENTICE WAS HURRIED.

HE RETAINED HIS SELF POSSESSION, BUT THAT WAS ABOUT ALL.

Fred F. Prentice, of this city, had an experience in a hotel fire Saturday that he isn't likely to forget. He was asleep in the Dalton house at Jacksonville, Ill., Saturday morning about four o'clock when the hotel was discovered to be in flames. The flames were close to the Janesville drug man's room, and his escape was a hurried one. It was devoid of ceremony as well, but he writes to a Janesville friend:—

"I had my eye glasses, and although they may not seem like very ample cos tume, I think I compared favorably with most of the procession that I fell in with in the halls."

All the guests escaped in safety, but a fair proportion of the baggage and clothing went up in smoke.

TAYLOR WON THE SHOT GUN.

HIS SCORE PROVES TO BE THE BEST THAT IS MADE.

The six bullets that Norman B. Taylor put inside of a half inch ring fifteen yards away stood as the winning score at the shooting gallery last night. The score might well have been counted as seventy-two, but even at seventy-one it headed the list, and the dispenser of Chicago Heralds carried off a double-barrel shot gun as first prize. The other prizes were:

Second—Hunting coat and hat—Chas. W. Davis.

Third—Set of boxing gloves—M. W. Hamlin.

Fourth—Fancy fishing rod—Frank N. Webster.

Fifth—Set Indian clubs—John J. Mosher.

To-day a silk umbrella, a silk hat, a Derby hat, a pair of kid gloves and a straw hat were offered by Messrs. Mitchell & Comers as prizes for the one making the most successive bulls-eyes on a two inch bell. The match will close one week from to-night.

IT WILL HELP TO FIGHT FIRES.

An Important Piece of Apparatus Added to the City Fire Department.

The New Wagon and Its Equipments—Patrol and Ambulance as Well.

This afternoon the new fire patrol wagon was taken from the shops of the Empire Cross Spring Co on South River street, and placed in its permanent quarters beside the No. 2 hose carriage at the east side engine house The wagon is a beauty, and at the same time possesses strength for service and utility. During the past six months there has been much criticism concerning this innovation in the apparatus of the fire department, a few contending that it would prove a waste of money, and be of no service whatever to the city so far as the fire department is concerned. This will be answered in due time, by practical experience. The wagon is for the especial use of the Fire Police Company. Heretofore this company, composed of twenty members, have been greatly retarded in their duties at fires in that they have never been equipped with apparatus, and simply performed the duties of "special police." With the new wagon and the paraphernalia to be carried, the company will have its hands full of work at fires. Instead of simply standing guard they will act as a salvage corps, and in this branch alone will prove the usefulness of such an outfit in even so small a city as Janesville. This is not all. The wagon is provided with two chemical fire extinguishers, and it is calculated these will be at a fire anywhere in the city as quickly as the hose carriages, and will be able to extinguish a large per cent of the fires without the aid of the water works, thus saving an untold amount of property usually damaged or destroyed by a flood of water. This is not the only use for which the wagon is intended. It will be used as an ambulance, and held in readiness to instantly respond at all hours of the day or night to convey injured persons to the hospital from any part of the city, stretchers and mattresses having been provided for this purpose. Thus, in fact, the fire police company, under this new innovation, will become one of the most useful and serviceable companies in the city, and it is the opinion of many that before another twelve months rolls by, those who now look upon the company with disfavor, will be among its most enthusiastic admirers. This new outfit has cost the Fire Police company considerable mony, all of which has been paid from the company treasury, not one cent being paid by the city. True, on February first next the company will receive the insurance money which has heretofore been paid to the firemen, amounting to between seven and eight hundred dollars. In order that the people may know something of the cost of this new arrangement, secretary E. B. Heimstreet has kindly furnished the Gazette with an itemized statement of the money paid out up to date, to which must be added the salary of the driver—$35 per month, which will give a pretty definite idea of what the whole thing costs. The statement is as follows:

EXPENSE FIRE PATROL.

1 team horses	$ 370 00
24 tarpaulins	144 00
1 Lowel fire ax	2 70
1 steel crowbar	3 00
2 Babcock fire extinguishers	90 00
8 lantern snaps	8 00
1 bed and bedding for man	11 52
1 fire patrol wagon with 200 feet fire rope, 1 steel hammer, 1 steel shovel, 12 extension poles, rods, rings, hooks, etc	450 00
Blankets, whip, combs, weights, etc	23 90
1 hanging harness	90 90
Nickle plating	6 00
Chamois, sponges and cleaning material	1 65
B. Barriage, 1 month pay, driver	35 00
Freight and express	3 88
Repairs and miscellaneous expenses	42 30
Total	$1,282 85

The wagon, as stated before, is a beauty, and is but a fair specimen of the work turned out at the Empire Cross Spring Co. It is also evidence that Janesville mechanics and builders are capable of turning out as fine work in the way of carriages and light vehicles as can be procured in the eastern market. The dimensions of this wagon are:—

Extreme length—21 feet.
Hight—over all—6 feet 6 inches.
Length of box—9 feet.
Width—hub to hub—6 feet.
Track—5 feet.
Weight, 1710 pounds.

The box rests on the well known "platform gear" manufactured by the Empire Cross Spring Co., and has the "Pinneo & Danniel's "A", wheels, 1 3-4x1-2 steel tires. The running gear is painted a Brewster green with brillian carmine striping. The body is painted black and Brewster green with carmine pannels, with gold striping. "Fire Patrol" in large 3-inch gold letters on each side of the box at the forward end, and a handsome gold star at each end of the driver's seat. The colors are well chosen, the combination showing to good advantage.

The equipments of the wagon consist of the following:—

2 Babcock Fire Extinguishers, 6 gallons each.
3360 square feet of fire covers, or paulinee.
10 fire lanterns.
200 feet rope.
6 extension poles, 14 feet long each.
12 iron rods.
1 fire axe.
1 steel crowbar.
1 steel sledge.
1 steel scoop.
4 broome.
8 rubber coats.
8 pair rubber boots.
1 patent door opener.

The wagon is now receiving the equipments, and at seven o'clock this evening it will be formally accepted and placed in service, after which it will be given a brief "spin" around the business portion of the city, that all may have an opportunity to see it. After seven o'clock this evening it will respond to all fire alarms.

SAYS THEY MAY BLACK LIST.

A DECISION OF IMPORTANCE TO THE RETAIL COMMERCIAL AGENCY.

C. A. Sanborn, secretary of the Janesville branch of the Retail Commercial Agency, has received word of a suit before the Illinois circuit court at Ottawa that will be of general interest. The case was that of William Nicholson of Streator, against Julius Moses of the same city.

Mr. Moses was a member of the Merchant's Retail Commercial Agency. Nicholson owed Mr. Moses a bill and refused to pay it after repeated dunnings and then Mr. Moses caused Mr Nicholson's name to be placed in the Reference Book published by the agency. Nicholson sued Moses for conspiracy and defamation of character. Judge Blanchard held in his decision, that the agency was on an equal footing with Bradstreet's and Dunn's and differed only in that the latter protected the wholesale, while the former protected the retail merchants against dishonest customers; and when a debtor would not pay his debts to one merchant, there was no reason why he should be permitted to obtain credit from another, by compelling the first merchant to keep silent as to his loss.

The decision is the first on record with regard to black listing and is considered of great importance among retail merchants who do a credit business.

It was moved by Mr. Merrill, and carried, that the trustees of the county insane asylum be authorized to purchase a watchman's time detector. These detectors are manufactured by E. Amhauser, of New York, and are the shape of a watch, about one inch thick and three or four inches in diameter. They are carried by the the watchman in a leather pouch suspended from the shoulders. Over the face of the detector is a paper dial. A different sized key is hung at the door of every room, and as the watchman enters he perforates the dial with the key which registers the exact time of night. Each morning the paper dial is removed and a new one put in its place. The cost of the detector will be $67.

The committee on public buildings were authorized to examine the shelving and book cases in the office of the Register of Deeds, and to enlarge the capacity of same if it was deemed necessary, at a cost not to exceed $500.

At 10:30 the resolution of Mr. Gunn was read, authorizing C. E. Lee, S. C. Chapman, and John J. Pearson to investigate the seeming excessive expenses of Rock county's courts in comparison with those of other counties. The resolution was unanimously adopted. Mr. Gunn's resolution to place all repairs and permanent improvements to be made on the county buildings at Johnstown under the direction and care of the trustees of the insane asylum, instead of the committee on buildings, was lost.

A resolution was adopted appropriating $1,500 for repairing the heating apparatus and making other needed improvements on the Rock county court house, after which the session adjourned until until two o'clock.

At the afternoon session a resolution was adopted appropriating $3,750 toward the rebuilding of the Four Mile bridge in the town of Janesville.

MEMORY TRAINING.

"The Natural Method of Memorizing and Memory Training," by Prof. W. W. White, of New Haven, Conn., is soon to be taught in this city by Professor J. J. Thomson, of Illinois. This system has attracted the attention of leading educators, and has been taught at the Chautauqua Assembly of 1888. Bishop J. H. Vincent, D. D., LL. D., says of it: "I am thoroughly delighted with it; its theory is complete and the plans and devices based upon that theory are in every way practicable. No one can follow the unique and valuable plan of Prof. White without great gain of mental power." This system is simple, logical, natural, easily learned and applicable to everything to be remembered. For further information inquire of King & Skelly.
